Introduction of Mayor Reynolds	Greg Clark	Mayor Reynolds would like to expand involvement in the NAs. We are fairly active, but it would be better to have a larger, more representative group making decisions for the WHNA and others. There needs to be a way to include renters and transient residents in the association. He would like to see the current NAs be helpful to non-associated areas of the city so they can reap the same benefits as we have. The NAs compete for the “mayor’s money” and lock out the areas that have no NA. He would like to see our General Meetings become more of a Town Hall experience to foster involvement by narrowing the focus to be issue specific in an ongoing basis. The mayor has a FB page and residents are encourage to contact him anytime. Other topics included rentals, homelessness, ARPA funds and the LaCrosse Center reopening.
Leaf It	Linda	The city will have only a small window of boulevard leaf collection this year. They are encouraging mulching and/or using drop-off locations. More information is at https://www.cityoflacrosse.org/your-government/departments/parks-recreation-forestry/sustainability You can even advertise your participation with a delivered yard sign to encourage neighbors!
